

# Center for Digital Knowledge

---

Paul F. Marty  
School of Library and Information Studies  
Florida State University

# Research Focus

- \* Supporting knowledge creation as a distributed activity in digital environments
- \* Examples:
  - \* Data sharing and collaboration among virtual, scientific, multidisciplinary teams
  - \* Students co-creating digital learning environments
  - \* LAM encouraging users to co-curate digital knowledge through collaborative annotation, collection building, etc.

# Goals & Outcomes

- \* Collaborative research and interdisciplinary education
- \* Center's role in new information commons
- \* Building a strong base of collaborative, interdisciplinary research among faculty, staff, and students
- \* Involving students / end-users as active participants and increasing awareness of university's role in knowledge creation
